ISPÍRL OPENS DESIGN SHOWROOM

Woodbury, Minn. (July 12, 2010) – Ispiri, a design, building and remodeling company has recently opened a showroom & design center next to the current Woodbury office. The showroom has kitchen and bathroom vignettes, product displays and design ideas. It is open to the public and people are encouraged to stop by and walk through the center.

Ispiri prides itself on creating and designing memorable projects with a client-first, hands-on, hassle-free process. The showroom gives the design team an opportunity to sit down with the client in an environment that encourages conversations about what the clients wants. The design team then incorporates the ideas of the client into a plan, overseeing every aspect of the process, from the first shovel-full to the final cleaning of the project.

The showroom also incorporates a fully functional gourmet kitchen with running water and electricity. It is a great place for local top chef's to host cooking demos, classes or other unique events.

"We are full-service, from conception to completion, with an extensive warranty program to back-up our work. That separates us from the other guys," Ispiri's owner Jason Fabio says. "We want to change the public's perception of the construction industry – let them know there are honest, hard-working companies that can redesign and build their homes, treating them fairly in the process. We take pride in creating projects that exceed the expectations of our clients.

Ispiri creates a building or remodeling experience for each and every one of their clients that is nothing short of inspired. From the initial meeting to the final touches, the vision and desire of the client remains the focus.

Ispiri is located at 710 Commerce Drive, Suite #150 in Woodbury. For more information, visit www.ispiri.com or call 651-578-0122.
